

CYBER SERVICES

At Westchester, we believe that being prepared for a cyber incident can go a long way in limiting losses when one occurs. To complement our superior insurance protection, we offer access to enhanced benefits and services through various third party service providers to deliver extra assurance and specialized attention for our cyber policyholders.

Westchester has partnered with a panel of experienced firms for various cyber services related to incident response and loss mitigation.

Westchester has no obligation to provide any of the legal, computer forensics, public relations, notification-identity services, call center services, cyber extortion-ransom, business interruption, legal-regulatory communications by the Cyber Incident Response Team. The policyholder is under no obligation to contract for services with Cyber Incident Response Team service providers, except as amended by the Cyber Incident Response Team Endorsement.
