DIGITECH® ENTERPRISE RISK MANAGEMENT

A distinctive level of technology and cyber protection that only Westchester can offer

Chubb has handled technology-driven claims and cyber incidents, and underwritten exposures for hightechnology policyholders for more than 30+ years. Over this time, Chubb has cataloged a considerable amount of loss data. A careful analysis of this proprietary data shows that the best way to combat the constantly evolving world of cyber risk is to implement a three-prong approach to cyber underwriting that incorporates risk transfer, loss mitigation services and post-incident services. Why? Because technology and cyber exposures are enterprise risks that require an enterprise risk management solution: Chubb's DigiTech® Enterprise Risk Management (DigiTech® ERM).

With DigiTech® ERM, Chubb's policyholders have access to coverage that builds on the technology and cyber products that have come before it, incorporating insight gained from years of claims and underwriting experience. This premier coverage is backed by the financial strength of Chubb's A++ balance sheet and supported by Chubb's extensive cyber services:

- Loss Mitigation Services – access to the tools and resources needed to address and gauge key areas of cyber security risks before an event occurs.
- Incident Response Services – a diverse team of experts in the legal, computer forensics, notification, call center, public relations, fraud consultation, credit monitoring, and identity restoration service areas to help limit exposure to a loss when an event occurs.

Competitive Advantages
