

WESTCHESTER PROGRAMS

At Westchester, we specialize in developing customized niche program solutions for program administrators and managers to help them build programs that succeed.

Unlike other carriers, we recognize that “not one size fits all” when it comes to program appetite. Therefore, we look for a few key characteristics when evaluating a potential program opportunity:

- Underwriting history, authority and demonstrated results
- Consistent coverage, limits and requirements
- Homogeneous group or common industry
- Underserved, perceived as difficult, or unique product and/or service approach to a specific class
- Specific industry expertise
- Premium targets based on geographic scope
 - State or regional – minimum of \$5 million
 - National – minimum of \$10 million
- First dollar programs – limited appetite for fronted, captive or risk sharing structures
